Discussion: 8.2 City Council Discussion Regarding the Appropriate Penalty for the Late Submission of Liquor License Renewal Applications and Supplemental Documents

Council Comments and Questions: There was support expressed for a two-week grace period with no penalty; establishing a tiered penalty depending on when items are turned in; how certain Council member would vote on certain measures; a complaint from social media was shared; remarks about the challenges in running a business; a comment about the State not providing grace period; support was expressed from multiple members for an online application submission; inquiries and comments about the deadline for multiple items; charging a higher fee if a special meeting would have to be called; a remark that creating a grace period would ostensibly create a new deadline; a desire to include wording in the Ordinance that applications would only be considered at the next regularly scheduled L.A.B. and Commission meetings; support for a 10% penalty, with a minimum of $50, plus an additional per-day fee; no support for a grace period; support for closure of the business due to their failure to submit their application and documents; possibly changing the license year; providing additional reminders of the due date; not providing any reminders; the additional impacts of these businesses being closed that we could expect; favor for sending out the applications a month earlier; bypassing the L.A.B.’s review of the renewal applications to shorten the renewal period; and making an inquiry of those who timely file as to what penalty they feel would be reasonable.

There was no action taken; Staff will review these remarks and hopefully bring back an item at a later point.

Action: 8.3 Ordinance Amending Title 20 Chapter One Creating A New Section Fourteen Which Establishes A Public Comment Period

Council Comments and Questions: Council expressed appreciation for Staff's work; asked where this would be on the website, where it would be posted at City Hall, and where citizens could turn in their comments at City Hall; a suggestion to include a mobile friendly form; responded to Mr. Monty’s comments; a suggestion to adopt the Ordinance now and amend it later; another suggestion to invite public comments on properties we currently have for sale; a question as to what the timing would be for triggering the public comment period during a project which might require easements for multiple properties; discussion about the timing of this process and how it would work in conjunction during an eminent domain proceeding; and a suggestion to bring it back at a later time.
Don Monty remarked that it is not clear why this is coming up now and why certain subjects are being called out specifically. He noted that public comment periods do not always result in spirited exchange, suggested a follow-up public forum, asked how the public will be informed, and suggested the item needs to be fleshed out further. At a later point, Mr. Monty commented on the subject of the sale of real estate, as well as including a mechanism for the City to trigger the comment period for subjects that it anticipates being controversial.

Following this discussion, it was decided not to act on the Ordinance at this time.
